

Unit 3 – Activities - The Secondary Sector

INDEX

2.	Origin of Raw Materials	1
3.	Sources of energy.....	1
4.	Industrial regions and Economic inequalities	1
3.	Analysis of images.....	2
6.	Environmental Problems.....	2
7.	Spain.....	2

2. Origin of Raw Materials

- 1) Write a list of 7 countries that produce oil.

- 2) Tell me 4 countries that produce iron.

- 3) Tell me 3 countries that produce copper.

3. Sources of energy

- 4) Write a list of Traditional Sources of Energy and another list of Renewable sources of energy.

Traditional Sources of Energy	Renewable Sources of Energy

- 5) Research and explain in the class a renewable source of energy.

4. Industrial regions and Economic inequalities

- 6) Compare the rates of the first two countries.

Industry	Brazil	Ethiopia	France			
Part of the GDP:	22.2 %	15.6%	19.3 %			
Labour Force:	13.3 %	5 %	21.3 %			

- Explain the percentage (high, low, medium).
 - To what region do you think that they belong?
 - What do you think are the main characteristics of each industrial sector?
 - Why do you think that Brazil has a higher percentage of industry in the GDP than France?
 - Look for the data of three countries of your choice and write the information in the table (use the web page of the CIA Factbook).
- 7) Imagine that you work for the UN and you have to work out a plan for industrialising an underdeveloped country. Choose one underdeveloped country and write your proposals.

3. Analysis of images

- 8) Choose one photograph from the presentation and analyse it.

6. Environmental Problems

- 9) Choose one environmental problem caused by industry and explain it to the class.

7. Spain

- 10) Choose one of the Spanish Industries and explain to the class its more important characteristics:
- Origin of the capital, workers, production, main characteristics, exports...
